Minutes of the 144th meeting were read by the Chairman and approved as read.

1. GENERAL

[REDACTED] pointed out that the label on JANIS supplements should have the word "supplement" in the title, and that letter of promulgation for future JANIS supplements should be complete indicating past supplements to the same study, and listing errata sheets, if included in subject supplement. These procedures will be followed in future JANIS supplements. The Editorial Section will prepare copy for letter of promulgation in consultation with others concerned.

2. EDITORIAL

Dr. Meigs reported that editorial work on Chapters VIII, IX, and XI of JANIS 153 had been completed, and that all of JANIS 79 had been finished, except for eight or nine pages of Chapter V, which were expected from the contributors today. Chapter V is now running about 280 pages, instead of the original 160 pages as estimated by the contributors. It was pointed out that this extra burden, beyond the original estimate, made it difficult for the Editorial Section to do as satisfactory a job as normal, as well as increasing the load given to the printer on a short deadline.

3. PRODUCTION

Lt. Van Rees reported that the following supplements had been received from the printers: JANIS 73-3, 76-1, 84-1, and 81-1. Bulk shipment of Chapter VII and advance copies of Chapter IX, JANIS 150, have also been received.

There being no further business, the meeting was adjourned.
